

CAR PILE

(at Pierbaai Reef)

Dive an underwater junk yard! Part of The Dive Bus house reef and very cool...

Deep; Advanced Open Water certified divers only; Nitrox recommended.

The barge carrying cars and trucks from the 50s, were sunk in the early 70s to create an artificial reef and encourage marine life back into the area. The cars and trucks are now totally integrated into the reef - look out for moray eels swimming through car headlamps, and check out your reflection in the chrome bumpers...

Car Pile starts at approx 45 ft / 13m and gets increasingly interesting the deeper you go so watch your depth! Explore the shallow reef on your way back for a super-long and very pretty safety "go".

JOURNEY TIME

2 minutes walk from The Dive Bus to the entry point on the beach.

SHORE ENTRY

Easy, sandy entry at The Dive Bus house reef, Pierbaai. Ask The Dive Bus Crew for markers to begin your descent or you'll miss it - or dive it with a Dive Bus Crew member. Get there faster on a Thruster!

FACILITIES

Everything you need is on-site at The Dive Bus

NON-DIVERS

Stay at Pierbaai Reef for easy, pretty snorkeling.
